

December 18, 2011

Dear Team Xtreme Supporter,

We are currently looking for sponsors to financially aid and assist the young athletes of our organization. We offer a unique opportunity to partner with an organization based in Northern California.

Team Xtreme is a recognized 501c-3 Non-Profit Organization dedicated to the quality fundamentals and development of our student/softball athletes. As of today, the organization supports 36 athletes that compete in competitive A-Class Youth Fastpitch at the 12U, 14U, and 16U divisions. Over the past two years our brand has been visible at tournaments all over Northern California, culminating in appearances as far away as Spokane, Washington for ASA Western Nationals.

Many challenges face our young athletes today, as economic issues result in more and more public programs being eliminated. Throughout California, we have seen the elimination of many High School sports programs.

It is our mission to provide an opportunity for our athletes to showcase their talents and compete at the highest level. Our recognition of excellence is through positive coaching in a competitive and collaborative environment with an emphasis on education and social development. We would like to present these opportunities to all qualified athletes, not just those with the financial means to cover the costs of participation.

This year, we are offering sponsorship packages that range from our Elite Level down to Bronze. We will also accept any donations of goods and/or services that can be used as a auction/raffle item for our annual fundraisers. Thank you for your consideration.

Sincerely,

Scott Baumbach
VP Business Development
